

ANTONIS GRIGORIADIS

FULL STACK WEB DEVELOPER | DRUPAL SPECIALIST

 Larnaka, Cyprus
 anto.grigoriadis@gmail.com
 github.com/antogrigr
 +357 97695495

SKILLS

Languages: PHP, JavaScript (ES6+)
Frontend: React (component-based UI development)
CMS: Drupal 9 / 10
Databases: MySQL
Tools: GitLab, JetBrains Rider, Cursor, Antigravity
Performance: Google Lighthouse Optimization
Other: Responsive Design, SEO Best Practices
Intermediate: C++

EDUCATION

University of Western Macedonia
Bachelor of Science in Computer Engineering
Diploma Thesis: Project ATEI – Action RPG Game Development

LANGUAGES

Greek: Native
Russian: Fluent (spoken & written)
English: Intermediate (reading/writing), basic spoken communication

SOFT SKILLS

- Problem Solving
- Adaptability
- Team Collaboration
- Communication
- Creativity & Innovation

PROFILE

Full-Stack Web Engineer with 6+ years of professional experience architecting high-traffic platforms, enterprise CMS solutions, and modern decoupled web applications. Successfully delivered and maintained **30+ production websites**, including custom booking engines, e-commerce platforms (Drupal Commerce), and data-driven systems.

Core Technical Expertise: Backend & Databases: PHP (OOP), Laravel 11, Custom Drupal 9/10 Architecture, PostgreSQL & MySQL database modeling, query optimization, and secure RESTful API design (Sanctum Auth).

Modern Frontend & SPAs: React 19, Single Page Application (SPA) architecture, component lifecycle, Tailwind CSS, Vite, and hardware-accelerated animations (AOS).

DevOps, Security & Performance: Secure payment gateway integrations, 90+ Lighthouse score optimizations, defensive UI design, cross-browser compatibility, and modern Git workflows.
Demonstrated track record of combining enterprise stability with modern component-based frontend engineering to deliver scalable, performant digital solutions.

KEY TECHNICAL IMPLEMENTATIONS

Decoupled Web & REST APIs: Engineered decoupled SPAs combining Laravel 11 REST APIs with React 19, utilizing Sanctum authentication and PostgreSQL database schemas.

Modern Frontend & Performance: Built component-based responsive UIs with React 19, Tailwind CSS, Vite, and AOS animations, maintaining defensive state handling and 90+ Lighthouse scores.

E-Commerce & Payments: Implemented secure payment checkouts and complex product architecture via Drupal Commerce across high-traffic platforms.

Custom Backend & Module Logic: Developed custom PHP/Drupal modules, OOP backend hooks, and automated Views query pipelines for 30+ production websites.

Security & DevOps: Oversaw automated deployments, Git workflows, regular security patch management, and automated backup routines for business-critical client platforms.
